Designed with U in mind!
Here is what is happening at PVS Sensors!

- Our New BMA Barrel switch is designed for the Compactor / Baler in mind! Available in Field Adjustable or Factory Set, designed with a standard 10 amp rated micro switch (16 amp is optional). Set points are available from 10 to 7500 psi, has a 25,000 psi maximum overpressure. Various port sizes and electrical terminations are available.

- New MTB Bi-Met Temperature switch, low cost, excellent for many applications such as Engine Protection, Refrigerant, Chillers, Fire Suppression and many other industries. Please see next page for highlights of this switch.

- Did you know that PVS Sensors offers complete custom design and manufacturing services to meet your specific needs? Call 1-800-831-8217 to discuss your requirements today!!

WHAT'S NEW….???

NEW

MTB Bi-Met Series Temperature Switch

Temperature Range:
40° - 300° F (5°C – 150°C)
Setting Tolerance:
+/- 5 ° F (+/-2.8°C)
Maximum Working Temperature:
325 ° F (163 ° C)
Maximum Probe Pressure:
5,000 PSI (345 Bar)

Applications:

Oil Pressure
(Low and High engine speeds)
After Cooler Water pressure
Crankcase Pressure
Inlet Manifold Air Pressure
Coolant Temperature
Lubrication oil temperature
After cooler temperature
