

Pressure, Vacuum & Differential Switches

HIGH PRESSURE

BMA / BMF Series

BPA / BPF Series

EPA / EPF Series

**PBPA / PBPF Series
PISTON DESIGN**

VACUUM & LOW PRESSURE

**PMA / PMF Series
PVA / PVF Series**

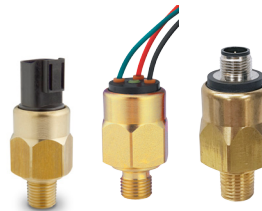

**PSA / PSF Series
VSA / VSF Series**

**PAS & PVS
Series**

**APA / APF Series
AVA / AVF SERIES**

**LMA / LMF
Series**

DIFFERENTIAL FDA / FDF Series

Temperature ~ Level ~ Temperature / Level Combination Switches

VLS Series

STEM: Brass • Nylon • Stainless Steel
FLOAT: Buna • Stainless Steel

**TFL Series
Combination
Temperature/Level**

STEM: Brass
FLOAT: Buna
Set Points up to 285°F (140°C)

SML Series

HOUSING & FLOAT:
Polypropylene
Stainless Steel

**Fluid Expansion
TAS / TFS Series**

Factory Set or Field Adjustable
40° - 300°F (4° - 150°C)

TBM Series

Factory Set Only
75° - 290°F (24° - 143°C)

Transducers

Pressure ~ Temperature ~ Level

Available with various Outputs ~ Ports ~ Electrical Connections
Customized Pin Out Configurations Available - NO Charge!

XTC Series

Ceramic Sensing
Pressures up to 3500 psi

VTC Series

Ceramic Sensing
Pressures up to 2000 psi

STC Series

Thin Film Sensing
Pressures from -14.5 to 14,500 psi

TTR Series

Temperature Transducer

PTT Series

**Combination Pressure/
Temperature Transducer**

PTL Series

Level Transducer

APPLICATIONS

Industrial Applications

Refrigeration

Chillers

Lubrication Systems

Hydraulic Lifts

Compaction (Waste)

Air Compressors

Hydraulic Power Units

Fire Suppression

Machine Tooling

Oil Cooler Fan Systems

Automation Control

First Class Customer Service - Custom Engraving - Custom Design
